This submission does not represent that a search has been made or that no better art exists. While the term "references" is used in citing the publications called to the examiner's attention herein, applicants do not make any admission that each or all of them are "prior art" references within the meaning of the statutory and case law.

Applicant reserves the right to contend, where appropriate, that a reference asserted against any claim of the present application is not prior art under the facts and the law.

Applicant also reserves the right to present appropriate arguments and/or evidence to establish patentability over the references, should one or more of the references be applied against the claims of the present application.

Applicant respectfully requests that the examiner independently determine those items which the examiner would consider the most pertinent of all the references cited herein.

The undersigned hereby certified that each item of information contained in the Information Disclosure Statement was first cited in a communication from a foreign patent office in counterpart foreign application not more than three months prior to the filing of this Information Disclosure Statement therefore no fee is due. However, if it is determined that any fee is due the Commissioner is hereby authorized to charge such fee to our Deposit Account No. 50-0518.

Applicant respectfully requests that the references be considered and made of record.

Respectfully submitted,

STEINBERG & RASKIN, P.C.
